Rescheduling due to Harris Public Meeting.

I would like to schedule a few minutes to discuss next steps on the South Carolina Water Withdrawal Rule. It has now been 5 months (August 29th, 2017) since we met with them and they have not really responded to us. When we left that meeting, we asked them to look at how their WQS addressed issues where water quantity affected water quantity and if they'd consider a flow WQS. We asked them how they planned to address water bodies that the NGOs submitted as impaired for Hydro Alt. We put together a fair bit of materials for them to look at and asked them to evaluate the material and meet with us again to discuss. If the state's response has been to set up a multi-agency group to address these issues, it would seem the management team that we met with – Heather Preston, Mark Hollis, etc – should inform us on what they're doing. If they have provided additional material to Mary, it would be great to get that information in more than just the snippets that we've received. Joanne and Annie led the charge on this. With Joanne gone, I think it is important to get the next steps in place while Annie is still here....and that clock is ticking down.
